FREE PAPER SESSIONS

Plenary Oral Session [Tower 3]

Thursday 7 January 16.20–17.50

The six highest-ranked submitted oral abstracts will be presented.

Prize: A prize for the best presentation, donated by the *Journal of Pathology* will be presented at the Conference Dinner.

POSTERS, VIEWING AND CHAIRMAN'S ROUNDS [Tower Foyer/Bridge Suite]

Viewing

Thursday 7 January 11.00–11.20

Friday 8 January 12.30–14.00

Chairman's Formal Poster Rounds

Thursday 7 January 12.45–14.00

Posters need to be displayed until at least 17.30 on Thursday 7 January as the final judging for competition will take place during the tea break.

Prizes

Poster round chairs will be circulating on Thursday 7 January to select the winners of the Pathological Society Sir Alastair Currie Prize and 2nd and 3rd poster prizes. Winners will be announced at the Society Dinner on Thursday 7 January.

Posters – Information for Presenters

- ▶ Dimensions are A0 portrait — please do not exceed these dimensions.
- ▶ The presenting author (or another author) must attend the meeting and present the poster during the allocated poster rounds in order for the abstract to be published in the *Journal of Pathology On-Line Supplement* (except where authors have been notified that their abstract will not be published in the *Journal*).
- ▶ Velcro will be supplied.
- ▶ *Scienceposters* – the Society can offer a poster printing service via *Scienceposters*. See information on our website.

VIRTUAL SLIDE SEMINAR AND COMPETITION: *Molecular Pathology*

Case Viewing (via PCs) [Beaumont Suite]

Thursday 7 January 09.00–18.00 (*Please note the competition closes at 16.30 on Thursday*)

Friday 8 January 08.30–14.30

Discussion Session [Tower 3]

Friday 8 January 13.30–14.30

Prize

The prize is a case of champagne. The winner will be announced at the Society Dinner on Thursday 7 January. *At the discretion of the winner, by tradition, this is shared amongst those present at the dinner!*

CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

Royal College of Pathologists

This Meeting has been approved by the Royal College of Pathologists for the purpose of Continuing Professional Development. Credits can be accrued as follows:

Full Day

Thursday 7 January 5 credits

Friday 8 January 4 credits

The Society is not permitted to issue certificates for less than full day attendance.

Delegates should use their reflective notes section of their CPD Portfolio to self-accredit.

GENERAL ARRANGEMENTS / ADDITIONAL INFORMATION

SOCIETY DINNER [Armourers Hall]

Thursday 7 January.

Ticket prices:

Undergraduates – £30.

All other delegates – Early Bird (until 23 November) £60, £80 thereafter.

Please book your ticket(s) when registering online.

[Venue Info Link](#)

TRADE EXHIBITION [Tower Foyer/Bridge Suite]

Delegates are encouraged to visit the Trade Exhibition and are requested to support the companies represented there.

PRESENTATION CHECKING AND PREVIEW [Beaufort Suite]

Presentation Checking and Preview will be available.

INTERNET ACCESS [Beaufort Suite]

Delegates will be issued with access details.

MESSAGES

During the Meeting, messages for delegates may be left at the following telephone number: +44 (0)7964 024118

There will also be a message board located beside the Registration Desk.

REFRESHMENTS [Tower Foyer/Bridge Suite]

All refreshments will be served in the Tower Foyer and Bridge Suite.

BADGES

Delegates are requested to wear their badges at all times.

COATS AND BAGS

Secure facilities will be provided for coats and bags.

TRAVEL, ACCOMMODATION AND VENUE

Please refer to the meeting website for all information: www.pathsoc.org

ENQUIRIES

Before the meeting please contact:

Pathological Society of Great Britain & Ireland

Address 1 Northumberland Avenue, Trafalgar Square, London WC2N 5BW

Telephone +44 (0)20 7872 5750 or 5751

E-mail admin@pathsoc.org

DISCLAIMER

The Pathological Society of Great Britain & Ireland cannot be held responsible for any injury or loss sustained during the Meeting.

FUTURE MEETINGS

Pathological Society

- 2016 1–5 February, London
Pathological Society Winter School for Trainees, London
- 2017 10–11 January, London
Pathological Society Winter Meeting (to be confirmed)

Joint Meetings of the British Division of the IAP and the Pathological Society

— all meetings include a Trainee and Undergraduate Programme

- 2016 28 June – 1 July, Nottingham
Nottingham Pathology 2016
9th Joint Meeting
- 2017 20–23 June, Belfast
Belfast Pathology 2017
10th Joint Meeting
- 2018 June/July, Maastricht (*dates to be announced*)
Maastricht Pathology 2018
11th Joint Meeting

REGISTRATION FEES			
PER DAY OR PART DAY			
DELEGATE TYPE or ITEM	FEE CATEGORIES	UP TO and including 23 NOV 2015	AFTER 23 NOV 2015
Pathological Society Members	Ordinary Members, Consultant and/or equivalent position	£ 125	£ 175
Pathological Society Concessionary Members	Biomedical Scientists; Honorary or Senior Members; PhD Students; Post-Doctoral Fellows, Technicians and Trainees	£ 60	£ 80
Undergraduate Members		Free	Free
Non-Members	Consultant and/or equivalent position	£ 175	£ 225
Concessionary Non-Members *	Biomedical Scientists; PhD Students; Post-Doctoral Fellows, Technicians and Trainees	£ 80	£ 125
Undergraduate Non-Members *		£ 80	£ 125
SOCIAL EVENTS			
Society Dinner	All delegates except Undergraduates	£ 60	£ 80
	Undergraduates	£ 30	£ 30

* CONCESSIONS

Delegates from categories: **Undergraduate Non-Members** and **Concessionary Non-Members** must provide an identification document as proof of their student or trainee status, including NTN's where applicable. Proof must be by way of a statement from the Head of Department.

A template is available on our website, please use this link: www.pathsoc.org

Please e-mail documents to: julie@pathsoc.org

REGISTRATION

Please use this link to register:

<http://www.pathsoc.org/index.php/meetings/society-scientific-meetings>

CANCELLATIONS

Please note that a cancellation fee of £20 will be deducted from any refund due for cancellations received in writing by Tuesday 8 December 2015 — no refunds will be made after this date.

DELEGATE ENROLMENT (AT THE MEETING)

The Registration Desk will be open from 08.00 each day (unless otherwise specified in the detailed programme).

TRADE EXHIBITION

Correct at time of going to press

The Pathological Society of Great Britain & Ireland wishes to acknowledge the support of the following companies:

BIOCARTIS

Biocartis aims to provide direct access to personalized medicine for patients worldwide by developing fully integrated, broadly applicable molecular diagnostics.

Biocartis' MDx Idylla™ platform, launched in September 2014, is a fully automated sample-to-result, real-time Polymerase Chain Reaction system that offers accurate, highly reliable molecular information from virtually any biological sample in virtually any setting.

A first BRAF test for metastatic melanoma was launched in September 2014 and a second KRAS test for colorectal cancer in June 2015. Biocartis is developing and marketing a rapidly expanding test menu addressing key unmet clinical needs in oncology and infectious diseases.

For more information, please visit: www.biocartis.com

COVARIS

Covaris is the recognized industry leader for DNA fragmentation. Adaptive Focused Acoustics® (AFA™) is the gold standard for shearing DNA and RNA in NGS applications, without GC bias or thermal damage.

Our unique active paraffin removal approach brings this quality of coverage to FFPE tissues for the first time. Covaris is extensively cited in peer-reviewed research articles using all available sequencing systems.

Covaris Focused-ultrasonicators are recommended by all major sequencing platform providers, and are used by leading Genome Centers worldwide including: the Wellcome Trust Sanger Institute, the Broad Institute, and BGI.

For more information, please visit: www.covarisinc.com

GE HEALTHCARE

The Omnyx® Precision Solution™.

By combining the technology innovation and backing of GE Healthcare with the pathology expertise and insight of the University of Pittsburgh Medical Center (UPMC), Omnyx offers:

- ▶ Whole slide scanners and integrated software platform deliver scale and reliability for your demanding pathology labs.
- ▶ Open doors to improve efficiencies, enhance access to peers and new digital tools.
- ▶ Designed as an enterprise-class IT system, Omnyx enables flexible and scalable configuration.

Visit our website: www.gehealthcare.com/digital_pathology

Or contact: Tim Wing, Senior Sales Executive – Digital Pathology, GE Healthcare IT

Tel: +44 7785 375822 Email: tim.wing@med.ge.com

GENOMIC HEALTH

Genomic Health is a leading provider of genomic-based diagnostic tests that inform treatment decisions and help to ensure each patient receives appropriate treatment for early stage cancer.

The company is applying its state-of-the-art scientific and commercial expertise and infrastructure to translate significant amounts of genomic data into clinically-actionable results for treatment planning throughout the cancer patient's journey, from screening and surveillance, through diagnosis and treatment selection.

The company is based in Redwood City, California with the UK office in London. For more information —

visit: www.genomichealth.co.uk

call: 020 3031 8087

email: europesupport@genomichealth.com

PERKIN ELMER

PerkinElmer is focused on improving the health and safety of people and their environment, and has recently expanded its activity in Molecular Cytogenetics and Oncology.

In addition to a complete array-CGH portfolio designed for detection of small genetic aberrations associated with learning disability and developmental delay, we also offer bead-based solutions for targeted molecular karyotyping needs (BACs-on-Beads) and variety of products for optimized RAS mutation detection.

With the acquisition of chemagen Technology, PerkinElmer is now able to offer the entire workflow incorporating automated DNA/RNA isolation solutions that can easily be adapted to different throughput needs required in molecular diagnostic approaches.

PHILIPS

Reach better-informed decisions through easy access to patient centric information.

Philips IntelliSite pathology solution is a highly scalable platform that enhances productivity with high-resolution images, collaboration features, and case management tools.

Leveraging decades of Philips' experience in clinical digital transformation, the IntelliSite pathology solution can provide you the speed and quality you need. Helping you to enhance knowledge sharing between care providers to meet the challenges of today's busy pathology lab.

TRADE EXHIBITION – continues overleaf ▷

SECTRA DIGITAL PATHOLOGY SOLUTIONS

With more than 20 years of innovation Sectra is a world-leading provider of IT systems for pathology, radiology and other image-intensive departments. We work towards a vision of a truly patient-centred care.

A healthcare where images and data follow the patient rather than letting organisational structures and IT systems hinder a smooth and efficient care process. Sectra's solution for digital pathology allows pathologists to make their diagnoses and carry out reporting with higher precision and less time spent per case. It makes workload balancing, second opinions and frozen section reviews much more efficient. Visit this link to learn more: www.Sectra.com/pathology

THERMO FISHER SCIENTIFIC INC.

Thermo Fisher Scientific Inc. (NYSE: TMO) is the world leader in serving science, with revenues of \$17 billion and approximately 50,000 employees in 50 countries. Our mission is to enable our customers to make the world healthier, cleaner and safer.

We help our customers accelerate life sciences research, solve complex analytical challenges, improve patient diagnostics and increase laboratory productivity. Through our premier brands – Thermo Scientific, Applied Biosystems, Invitrogen, Fisher Scientific and Unity Lab Services – we offer an unmatched combination of innovative technologies, purchasing convenience and comprehensive support.

UCL ADVANCED DIAGNOSTICS

UCL Advanced Diagnostics is the clinical service arm of the UCL-Cancer Institute and a bridge to University College Hospitals.

Our 30 strong team of clinical, scientific and administrative staff provide immunohistochemistry, in situ hybridization, molecular and digital pathology services throughout the UK and overseas. With >135,000 immunohistochemistry, >3,500 in situ and >2,500 molecular (including NGS) tests performed annually.

With much of our work focused on cancer, we believe that effective diagnostic testing should be available to all cancer patients, providing their clinicians with the best possible tools to aid in the diagnostic and therapeutic decision making process.

POSTER VIEWING AND CHAIRMAN'S ROUNDS (all categories)

GROUP – CATEGORY	POSTER NUMBER	CHAIR
1 – Breast	P1–P3	Prof CS Herrington, Edinburgh; Dr CM Quinn, Dublin
1 – Gynaecological	P4–P6	
2 – Gastrointestinal	P7–P16	Dr M Jansen, London; Prof MN Novelli, London
3 – Cardiovascular/Pulmonary	P18–P26 *	Prof M Ashworth, London; Dr A Rice, London
4 – Neonatal/Paediatric	P27–P38	Dr TS Jacques, London; Prof R Scott, London
5 – Experimental Tumour Pathology	P39–P40	Prof S Brandner, London; Dr R Tirabosco, London
5 – Neuropathology/Ophthalmic	P41	
5 – Osteoarticular/Soft Tissue	P42–P43	
5 – Technical Advances	P44–P45	
6 – Autopsy/Forensic	P46–P49	Dr L Browning, Oxford; Dr EJ Soilleux, Oxford
6 – Educational & Audit	P50–P56 *	
7 – Cellular/Molecular	P57–P62	Dr C Bacon, Newcastle-upon-Tyne; Dr T Marafioti, London
7 – Haematopathology	P63	
8 – Genitourinary	P64	Dr M Rodriguez-Justo, London; Prof G Thomas, Southampton
8 – Head & Neck	P65–P67	
8 – Hepatobiliary/Pancreas	P68–P72	
8 – Skin	P73	

* P17 and P55 have been withdrawn

THURSDAY 7

▶ 14.00 – 16.00

Tower 3

SYMPOSIUM***Pathology of PI3-Kinase in Research, Health and Disease***

Chair: Prof B Vanhaesebroeck, UCL Cancer Institute, London
 Prof AM Condliffe, University of Sheffield

14.00–14.30

[S4] *PI3-Kinase, from the Bench to the Clinic*

Prof B Vanhaesebroeck
 UCL Cancer Institute, London

14.30–15.00

PI3K Alterations and Vascular Malformations

Prof NJ Sebire
 Great Ormond Street Hospital and ICH (UCL), London
 and Dr S Castillo
 UCL Cancer Institute, London

15.00–15.30

Manipulating PI3K and the Heart – Morphological and Functional Phenotypes

Prof E Hirsch
 Molecular Biotechnology Center, University of Torino, Italy

15.30–16.00
